removed.txt

Damon,

Here are the final sample counts for the data that will be included in the report. Note these numbers do not include any QA/QC samples (DUPs, Field blanks, etc).

Sample Type	Sample Qty
AGI Passive Soil Gas	10
Landfill Soil Gas Screening Locations	30
Drywell/Drainage Structure Soil	9
Surface Soil	124
Shallow Soil	132
Intermediate Depth Soil	135
Beneath Water Table Soil	16
Surface Soil (Sieved Lead Only)	28
Operational Area ISM Surface Soil	46
Operational Area ISM Shallow Soil	46
Operational Area ISM Surface Soil (Sieved Lead Only)	9
Borrow Pit Test Pit Surface Soil	7
Borrow Pit Test Pit Intermediate Depth Soil	14
Surface Water	22
Sediment	12
Soil collected at proposed sediment locations	12
Groundwater	60

Damon,

Here is the information to access the database for you and Mike.

To access EQuIS Enterprise:

1. Navigate to the following URL: https://roux.equisonline.com/cfac_rifs
2. Enter the User Name - Cirian.Mike@epa.gov
3. Enter the password - Dfkx37Jwq!

To access EQuIS Enterprise:

1. Navigate to the following URL: https://roux.equisonline.com/cfac_rifs
2. Enter the User Name - repinedl@cdmsmith.com
3. Enter the password - Ptyw87Hfy!

Good morning Michael,

I reviewed my emails and I cannot find the email that links to the CFAC database website. Could you please send the link?

Thank you,

Damon L. Repine, CSP

Subject: RE: CFAC Phase I data

Damon ,

As discussed, all of the EDDs that have been generated so far for the project are available for download on the CFAC database website.

The geologic logs/well construction logs and field datasheets will be included as appendices to the draft Phase I Site Characterization Data Summary Report, which we plan to submit at the end of the month.

I will provide final sample counts next week once we have had a chance to perform final QA/QC on all the numbers.

Thanks.

Subject: CFAC Phase I data

Good afternoon,

Michael can you please provide the following items for us to review.

- ☐ ☐ ☐ ☐ ☐ ☐ ☐ All analytical data
- EDDs
- Database files
- Any historical data tables in Excel format

- Laboratory documentation for sample prep
- Geologic logs – prepared (e.g., gINT or similar) or field logs if prepared logs are not available
- Well construction logs – see above
- Sampling logs/field sheets
- Total sample count (i.e., 20 sediment, 50 soil, etc.)

If you have any questions feel free to contact me anytime.

Thank you,

Damon L. Repine, CSP
